CIF Observers Orientation Workshop
Knowledge Management Overview
Knowledge Management

- Overview: CIF Knowledge Management

- CIF Website Revamp
  - Information easier to find
  - Dedicated, private space for CIF Observers

- Global Support Program – Pilot Countries Meetings
A key objective of the CIF is to capture and share experiences and lessons learned in its work.

- CIF’s KM program:
  - Utilizes a variety of formats - online collaboration platforms, structured learning sessions, workshops, reports and videos.
  - Aims to facilitate effective stakeholder participation in the development and implementation of CIF-funded operations.
  - Develops knowledge products that are relevant to practitioners and stakeholders, and are useful in facilitating the replication and scale-up of the CIF’s work in the future.
Website Revamp

Overall: more intuitive, user-friendly, clearer navigation.

- For CIF Observers, a dedicated space ("micro site") that:
  - Is password-protected, and accessible only to administrators and CIF Observers
  - Gives users the ability to:
    - Post documents, media files, questions, ideas
    - Engage in discussions with fellow observers in a private space
    - Will have discussion areas for CIF (General), CTF, PPCR, SREP and FIP
    - Will be moderated, but without requiring approval for user posts to be published
